(a) Total number of wage or salary earners in employment excluding employees in the defence forces at home or abroad, National Service Trainees in camp and in 1932-33 Government "relief" workers. (b) Seasonally adjusted. Average earnings per employed male unit. Male units represent total male employment plus a proportion of female employment based on the approximate rates of female to male earnings.

(c) All building operations for which permits granted by Local Government Authorities. Excludes Government buildings (see footnote, page 27). (d) Including owner-built houses. Quarterly averages for years, and quarterly totals. (e) June, 1933; obtained from Census.

(f) July, 1939; obtained from National Register. (g) Partly estimated.

For meaning of symbols n.a., r, p, see page 1.

(a) Revised A.C.T. estimates based on Census of Canberra, 14th-16th September, 1951, are as follows:—1948, 19,806; 1949, 21,245; 1950, 23,867.
 (b) Census—30th June, 1947.

OVERSEA MIGRATION.

Permanent migration refers to persons, other than Australian troops, intending residence for one year or longer—in Australia in the case of arrivals, and abroad in the case of departures. Temporary migration refers to persons intending residence for shorter periods, together with Australian troops from July, 1947, onwards, irrespective of length of intended residence.

Period.	Temporary.				Permanent.

(a) Estimates based on Pay-roll Tax returns. Excludes National Service trainees in camp. Figures subject to revision.

(b) Includes Northern Territory and Australian Capital Territory.

AVERAGE WEEKLY TOTAL WAGES PAID AND AVERAGE EARNINGS.

The following figures are derived from employment and wages recorded on Pay-roll Tax returns (which cover approximately 80 per cent. of total employment) and from estimates of the unrecorded balance. Pay of members of the armed forces is not included. The figures are not seasonally adjusted. A seasonally adjusted quarterly index of average weekly wage earnings is published on page 2.

Period.	New South Wales.(a)	Victoria.	Queensland.	South Australia.(b)	Western Australia.	Tasmania.	Australia.

(a) Includes Australian Capital Territory. (b) Includes Northern Territory. (c) Total wages as above divided by total civil employment expressed in male units. Male units equals the number of males plus a proportion of females based on the approximate ratio of female to male earnings. The same ratio has been used in each State and because the average ratio of female to male earnings may vary between States, precise comparisons between average earnings in different States cannot be made on the basis of the figures above.

NOTE.—Comparisons as to trend should be made for complete years or corresponding periods of incomplete years. Quarterly totals and averages are affected by seasonal influences.

For meaning of symbol r, see page 1.

UNEMPLOYMENT AND SICKNESS BENEFITS.

Compiled from information furnished by the Department of Social Services on the operation of Part VII. of the Social Services Consolidation Act 1947-1953 and of the Unemployment and Sickness Benefits Act 1944 (operative from 1st July, 1945 to 30th June, 1947) which it repealed.

TRADE UNION UNEMPLOYMENT RETURNS.

The only records of unemployment available continuously over a long period of years at short intervals are the quarterly percentages reported by trade unions to the Commonwealth Statistician. The membership of the reporting unions consists predominantly of males, and represents at present about 55 per cent. of the total trade union membership and between 25 and 30 per cent. of all wage and salary earners. For some States and some industries the returns are more representative than for others. This table, therefore, should not be read as indicating the relative degree of unemployment amongst unionists in the individual States or industrial groups. It is an indication of trend of unemployment as estimated or recorded by secretaries of those trade unions which supply returns. Returns are not collected from unions whose members are predominantly in permanent employment (Governmental, &c.) or casual employment (wharf labourers, &c.). The percentages relate to unemployment due to all causes except unemployment of those directly involved in industrial disputes.

(Per Cent.)

(a) Prior to July, 1948, included Soups (1948-49 monthly average exports £92,000).
Gold Ingot, Bar, Sheet, Granulated, Dust, &c., and Gold Specie.

(b) Excludes Gold contained in Matte,

For meaning of symbol p, see page 1.

EXPORT PRICE INDEXES.

These index numbers are compiled from the prices of 20 commodities which normally constitute about 80 per cent. of all exports. For some metals and for wheat (from July, 1945 to September, 1951), the index of prices is deduced from average value of current sales or shipments and hence shows some irregularity.

SIMPLE AGGREGATIVE INDEX: FIXED WEIGHTS.

In this index the prices of the commodities are multiplied by the average annual exports (production in the case of gold) during the three years 1933-34 to 1935-36.

(Base of each Section: Average 3 years ended June, 1939 = 100.)

(a) From October, 1951, to July, 1953, the prices used for wheat are the estimated average realizations after weighting prices of quota and non-quota wheat. The estimated average realization for the period December, 1952 to July, 1953 is subject to revision when necessary data are available. Prices adopted for months since August, 1953, are of an interim nature, derived from available information of current sales. (b) Silver, copper, tin, zinc, lead. (c) Beef, lamb, mutton, pork. (d) Sultanas, lexis, currants. (e) Cattle hides, calf skins. (f) Where Australian gold has been sold on the overseas premium markets such price has been used in the index. (g) For all Groups (including Gold)—applicable from 1936-37. (h) For all Groups (excluding Gold)—applicable from 1936-37. (i) Nominal.

For meaning of symbols r, p, see page 1.

EXPORT PRICE INDEXES—continued.

RECENT TRENDS—EXPORT PRICE INDEX—WOOL AND "OTHER GROUPS".

Reference to the group indexes in the table on page 18 hereof will show the great increases and the wide dispersion of prices of export commodities in recent years. In particular, very great movements upwards and downwards occurred in the price of wool during the twelve months ended June, 1951. Similar, but less marked, movements have occurred in prices of metals and hides. Since wool is a predominant export (with 46 per cent. of the Base Aggregate of the index) fluctuations in wool prices obscure the movements affecting the other components in the All Groups index. For purposes of comparison they are shown separately below.

(Base of each Section : Average 3 years ended June, 1939 = 100.)

(a) Nominal.

MONTH-TO-MONTH INDEX : CHANGING WEIGHTS.

The index numbers in the two preceding tables, while they indicate satisfactorily the general trend of the market, take no account of the relative quantities actually sold at the different prices ruling during each month. In consequence the index numbers do not give an adequate indication of the significance of the price movements as they actually affected current sales. This is shown more accurately by the index numbers (including gold) in the following table, in the computation of which the "quantity-multipliers" are changed each month. The index numbers are designed solely for comparisons of current prices with those of the corresponding months, or periods of months, of the preceding year.

(Base : Weighted average price level in corresponding months of preceding year = 100.)

Month.	Month stated compared with same month of preceding year.						Period of trade year ending in month stated compared with same period of preceding year.

WHOLESALE PRICE (BASIC MATERIALS AND FOODSTUFFS) INDEX.

Commodities in this index are priced in their primary or basic form wherever possible. The prices used have in the main been obtained directly from manufacturers and merchants, and, with a few important exceptions, from Melbourne sources. Apart from locally-produced building materials and one or two minor commodities, however, the price movements may be taken as representative of variations in wholesale prices of basic materials in most Australian markets. The weighting system adopted is based on estimates of the average annual consumption of the commodities in Australia during the years 1928-29 to 1934-35 inclusive.

(Base : Average 3 years ended June, 1939 = 100.)

Period.	Basic Materials.							Food-stuffs and Tobacco.	Basic Materials and Foodstuffs.

(a) Base : Weighted Average Six Capitals (Retail Prices) or Six States (Wages and Hours) Average 3 years ended June, 1939 = 1,000
 Retail prices index numbers are for the capital cities. (b) Payable as from the beginning of the first pay period commencing in the second month of the quarter shown. (c) None declared but Wages Boards generally adopt Federal rates. (d) Payable as from 3rd November. (e) Payable as from 27th October. (f) Payable as from 22nd January. (g) Payable as from 27th January. (h) Payable as from 4th May. (i) Payable as from 27th April. (j) Payable as from 3rd August. (k) Payable as from 27th July. (l) Automatic adjustments discontinued. The rates shown came into operation from beginning of first pay period commencing August, 1953. (m) Payable from date in November or December, 1953, prescribed in determinations. (n) Payable as from 2nd November. (o) See note (c) above. An adjustment increase of 10s. was also generally payable under the Wages Boards determinations from early November, but ceased to operate from 9th December when automatic adjustments were discontinued. (p) Payable as from 1st February.

For meaning of symbol. ., see page 1.

FARM PRODUCTION PRICE INDEXES.

The annual index numbers shown in the following table relate to average "prices" of farm products realized in the principal markets of Australia. The "price" data used are average unit values for the total quantities of the relevant commodities produced or marketed in each year and the index numbers therefore measure both the effects of changes in prices (as such) and of variations in the quality, type, usage, &c., of products marketed. The index numbers for any year relate to the average values of farm products produced or marketed in that year, irrespective of the periods in which payment is received by producers.

The index numbers shown below are the Revised Series (December, 1952) in which average quantities of each product marketed in the period 1946-47 to 1950-51 have been used as fixed weights.

The preliminary index numbers for 1952-53 and 1953-54 are based mainly on the recorded or estimated movement in average values for the major farm products. They will be reviewed from time to time as further "price" data become available.

(Base : Average 3 years ended June, 1939 = 100.)

SHARE PRICE INDEXES.

In comparing movements in the two sets of index numbers on this page, attention should be paid to differences in the methods by which they have been constructed, and in the nature of the companies and the types of shares included in each index. These are outlined in the footnotes to the table.

(a) Compiled by the New South Wales Government Statistician. The index numbers are based on the prices of the ordinary shares of companies (excluding banking companies) whose business is conducted wholly or largely in New South Wales. They represent unweighted averages of the mean monthly prices per £1 of paid-up capital. Adjustments are made where capital is written off or bonus shares issued. Recomputed from original base, par values. (b) Compiled by the Queensland Bureau of Industry. The index numbers are based on the prices of the ordinary shares of 21 representative Queensland companies, and the preference shares of three companies whose ordinary shares are inactive. The index numbers represent unweighted averages. Mean monthly values are used. Recomputed from original base, April, 1928. (c) These shares relate to leading companies and do not include bank shares or mining shares.

(a) Excludes Suburbs of Hobart.

NOTE.—Building controls under National Security (Building Control) Regulations operated from 5th December, 1940, becoming most stringent in 1942, when consent was required for all building other than alterations and additions costing less than £25. These controls were progressively relaxed after 1945 and have now virtually ceased to exist, except for minor restrictions in Victoria and Western Australia. For more detailed notes see earlier issues of this publication.

The "value of permits" shown above relates to the value of building permits issued by local government authorities and not to approvals granted under the Regulations.

For meaning of symbol r, see page 1.

(a) Includes buildings erected under government home building schemes where permits obtained from local government authorities.
 (b) Includes Northern Territory. (c) Includes 86 country local authorities from September quarter, 1946. See E below. (d) Previously Hobart city area only. From September quarter, 1946, includes Hobart and suburbs. (e) Includes all areas outside Hobart and suburbs from September quarter, 1946. See F below. (f) Includes all areas outside Brisbane and suburbs from September quarter, 1947. See C below.

NOTES.

C. Includes the Cities of Bundaberg, Cairns, Charters Towers, Gympie, Ipswich, Mackay, Maryborough, Rockhampton, Toowoomba, Townsville and Warwick, and the Towns of Bowen, Charleville, Dalby, Innisfail, Longreach, Redcliffe, Roma, Southport, and Stanthorpe to June quarter, 1947, thereafter all areas outside Brisbane and suburbs.

D. Includes Local Government areas, and estimate for unincorporated areas.

E. Includes 15 country local authorities, representing approximately 30 per cent. of provincial population to June quarter, 1946. Thereafter includes 86 country local authorities, representing approximately 86 per cent. of provincial population.

F. Launceston only to June quarter, 1946, thereafter all areas outside Hobart and suburbs.

For meaning of symbols n.a., r, p, —, see page 7.

(a) Excludes Northern Territory prior to July, 1953; also extra-Metropolitan area of Western Australia prior to 1938-39
 (b) Prior to 12th November, 1951, primary producers' vehicles registered in Victoria included private cars and commercial vehicles, and were included in commercial vehicle registrations. Since that date, only vehicles constructed for the carriage of goods and used by primary producers solely in connexion with their business are so registered.

For meaning of symbols r, p, —, see page 1.

GOVERNMENT RAILWAYS : FREIGHT, PASSENGERS AND REVENUE.

The following table shows statistics of freight and passengers carried and of revenue earned on the five Mainland State Railways to the end of June, 1947. From July, 1947, particulars relate to all State and Commonwealth Railway Systems, Tasmania, however, still being excluded in respect of particulars of freight.

The daily average number of passenger-journeys is obtained by dividing the monthly totals by the *total* number of days in the month.

For meaning of symbol —, see page 1.

WHOLESALE TRADE.

An indication of fluctuations in the value of wholesale trade is given by the returns made under the Sales Tax Acts. With certain specified exemptions, all goods sold by wholesale in Australia, including imports, are taxable. The returns do not relate to all wholesale trade, as vendors trading only in exempt goods are not required to furnish returns. They do not necessarily cover a constant proportion of all trade. The effects of legislation and administrative changes on the recorded values of taxable and exempt goods respectively are somewhat uncertain, but total recorded sales are affected in smaller degrees. Insufficient information is available to enable adjustment to be made to the crude figures on this account.

(£ million.)

(a) On 10th September, 1953, the special rates of 20, 33⅓ and 50 per cent. were discontinued and the special rate of 16⅔ per cent. was imposed. (b) Preliminary and partly estimated.

RETAIL SALES: HIRE PURCHASE AGREEMENTS ENTERED INTO BY FINANCE COMPANIES.

The statistics in the following table relate to businesses which finance the sale of goods at retail but do not retail goods themselves. The statistics do not include hire purchase agreements directly made between retailer and customer, whether subsequently assigned to finance companies or not.

(a) General Banking Division of Commonwealth Bank prior to 3rd December, 1953. (b) Averages of liabilities and assets on Mondays of period until December, 1946; thereafter averages of liabilities and assets on Wednesdays. (c) At the beginning of July, 1952, the General Banking Division opened, in the books of the Central Bank, a special deposit account with a balance approximating the amount that would be required if it were subject to Special Account provisions of the Banking Act 1945. This represents a change in the form of liquid assets which were previously held, predominantly in Treasury Bills. (d) Between March and July, 1952, certain loans to buildings societies and credit foncier loans for housing were transferred from the General Banking Division to the Commonwealth Savings Bank in exchange for Government Securities. The reduction in these loans (held by the General Banking Division) over this period was approximately £24,000,000. (e) Returns for fourth Wednesday not available.

For meaning of symbols ... —, see page 1.

(a) To avoid duplication in aggregating particulars for the Commonwealth and States, the grand totals exclude payments by the Commonwealth to the States for compensation in respect of uniform taxation, interest on States' debts, special grants and special financial assistance, also pay-roll tax payments by States to the Commonwealth. The totals of revenue and expenditure of the States have also been adjusted. (b) Excludes Main Roads Department, Road Transport and Traffic Fund, and recoups of interest, &c. from undertakings outside the Budget. To obtain comparability between States, Commonwealth Hospital Benefits have been excluded from annual figures.
